### REASONS FOR ALLOWANCE

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

**The application has been amended as follows:**

In the abstract, line 13, after "an the channel.", please delete "On an appropriately prepared substrate ...the extension resistance is very low."

In the abstract, line 13, replace "an the channel." with --and the channel.--.

**The following is an examiner's statement of reasons for allowance:**

Claims 1-14, 26-28 are allowed because none of the prior art alone or in combination teaches or suggests the particular subset of the process steps disposing a thin, highly-doped layer of a silicidation stop material within the etched-away regions, the silicidation stop material partially filling the etched-away regions and forming silicidation-stop extensions, disposing a silicon fill layer within the etched-away regions over the silicidation stop material, wherein the silicon fill layer fills the etched away regions over the thin silicidation-stop extensions, thereby interposing the thin silicidation-stop extensions between the silicon fill layer and the channel region and between the silicon fill layer and the substrate, and wherein the silicidation-stop extensions are thin as compared with the silicon fill.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
